

**RENEWABLE<sup>®</sup>  
THERMAL  
COLLABORATIVE**

The RTC is the only global, buyer-led coalition focused on decarbonizing thermal energy with renewable solutions.

We work on **technology**, **market development**, and **policy**, with the goal of getting **projects implemented**.

- Our companies include RTC Members (buy-side/end users) and Solutions Providers (supply-side).
- States are also welcome to become Members—at no charge—and participate in and benefit from RTC.

**50% OF GLOBAL**  
final energy is comprised  
of energy used for heating  
and cooling

# What We Do

## Workstreams

- We advance policies and implementation for:
  - U.S. and State Policy
  - Electrification/Utility engagement
  - Industrial Heat Pumps
  - Thermal Energy Storage
  - Geothermal
  - Renewable Natural Gas (RNG)/Biomethane
  - Solar Thermal
  - Market-based Accounting
  - Europe

## Member & Solutions Provider Convenings

- Monthly Community Calls
- Buyer-Supplier Connect Sessions
- Annual Summit in Washington, D.C.
  - October 21-23, 2026
  - Hill Day
